Englewood Business Owners Deserve Improved Business Operations & Advocacy:

The training and support provided by the Chamber's programs help minority-owned businesses improve their operations, increase their efficiency and effectiveness, and become more competitive.

The Chamber is advocating for fair policies and regulations for small businesses of color. The chamber has partnered with the Small Business Advocacy Council and have reached out to local policymakers to promote policies that would support and incentivize minority-owned businesses.

Englewood Business Owners Deserve Infrastructure & Resources and Collaboration & Networking:

Small businesses of color in Englewood should have access to the necessary infrastructure and resources to succeed. This includes access to technology, modern facilities, technology-enhanced facilities, and training and mentorship programs that boost their competitiveness and skills.

Small businesses should have the chance to collaborate and network both locally and across larger corporate ecosystems. Creating ties with prospective suppliers, mentors, and collaborators can promote innovation, growth, and information exchange.
